Strong, Stable & Growing Performance

Serving the Energy Industry

Sunoco Logistics Partners L.P. (NYSE: SXL) is a publicly traded master limited partnership formed in 2002 to acquire, own and operate a geographically diverse group of strategically located crude oil and refined products pipelines, and terminal and storage facilities. We also buy and sell domestic lease crude oil. Our business is characterized by strong business fundamentals, long term customer contracts and relationships, a strong flexible capital structure to support growth and an experienced management team.

Our Goals

Generate a combination of stable and growing cash flows and provide attractive returns to investors.

Our Strategy

To increase asset utilization through efficient, competitive transportation, terminalling and storage services; to pursue opportunities arising from market dislocations and to expand our business platform through organic extensions and complementary asset acquisitions.

Our Results

From the formation of Sunoco Logistics through March 31, 2010, unit price has grown by 205% and distributions have increased by 142% resulting in a compound annual return to investors of 19%.

Our Competitive Strengths

- Highly efficient and strategically located pipelines and terminals with significant presence in the U.S. Northeast, Midwest and Gulf Coast.
- Flexible portfolio of refined products and crude oil assets to capitalize on market opportunities.
- Experienced management team with extensive background in the energy logistics industry.
- Capability to quickly respond to changing market conditions and requirements and to effectively consummate and integrate acquisitions.
- Financial flexibility that includes access to substantial amounts of growth capital and an investment grade credit rating.
- Unique strategic relationship with Sunoco, Inc. (NYSE: SUN), a refiner and marketer of petroleum and petrochemical products.

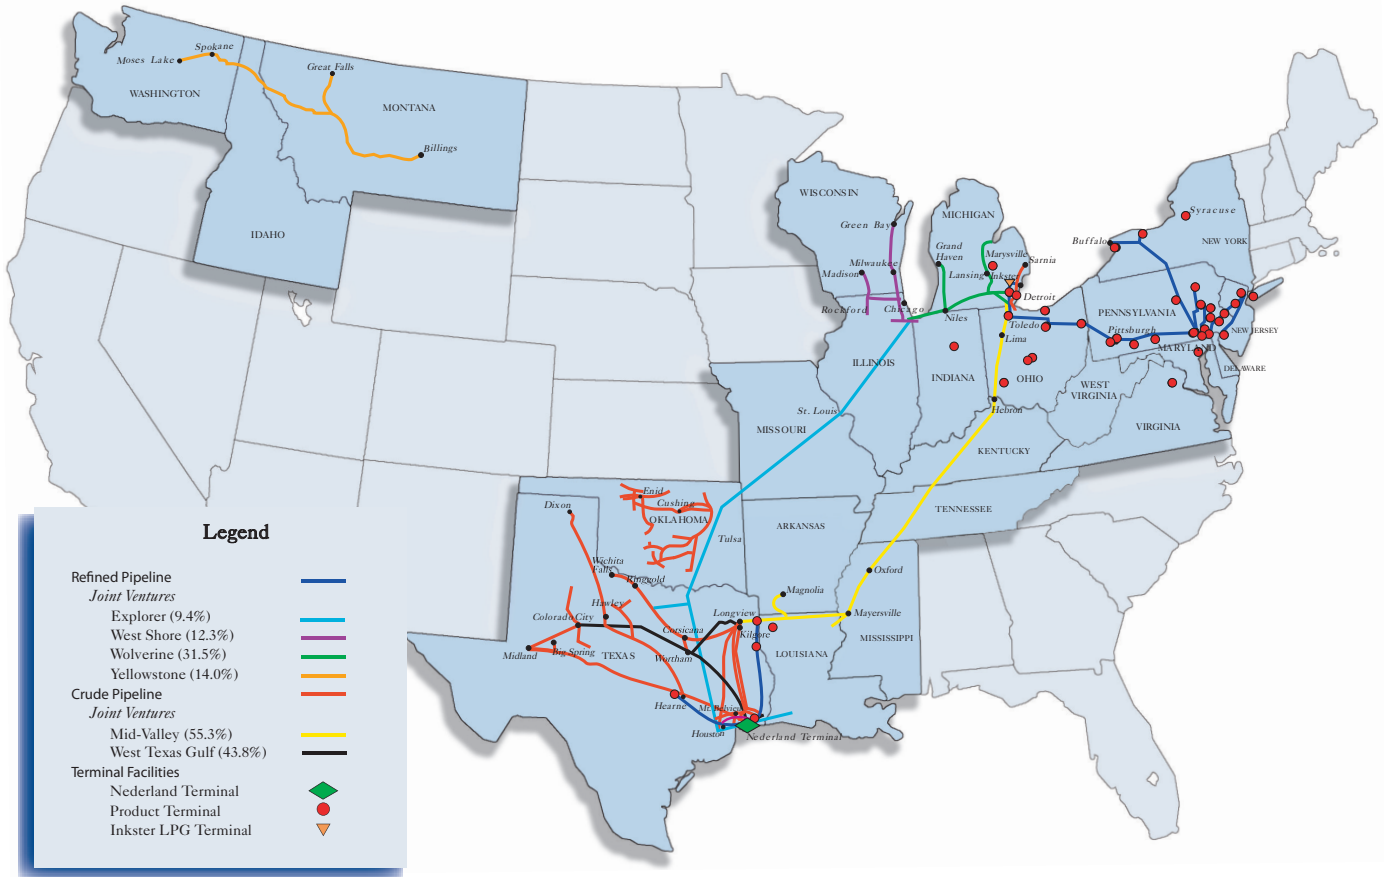

Distribution Summary

- Current annualized distribution of \$4.46 (6.5% yield as of 4/30/10)
- Latest 12 month distribution growth 9.9%
- LP Distribution increased 27 of last 28 quarters

Assets At-a-Glance

Sunoco Logistics has three business units: Refined Products Pipeline System, Crude Oil Pipeline System, and Terminal Facilities. They serve key refining and production centers in the Northeast, Midwest and Gulf Coast regions of the U.S. and they provide transportation and storage services to meet growing crude oil requirements into the U.S. Gulf Coast.

The asset platform has been expanded through 15 acquisitions since 2002 and includes:

- Approximately 2,200 miles of refined product pipelines
- Approximately 3,850 miles of crude pipelines
- 41 active refined products marketing terminals
- 23 million barrels of crude oil storage capacity (20 MMB at Nederland, TX)
- Ownership interests in 6 refined product and crude oil pipelines
